		<u>Questions</u>
		1.-Q: Delivery and Installation Timing As we understand it, the County plans to award the compactor contract and issue the Notice to Proceed approximately April 1 st , 2006. Per technical specification 1.10 A 1 on page 24, the contract will require that compactor delivery be no more than 8 months from the date of award. This would mean delivery in December 2006 while the installation will not occur until the early fall of that year. Does the County intend that the unit be completed and stored for 6-8 months before installation? If so can the unit be stored at the factory for most of this period and shipped mid-summer to support a timely installation? A: Refer to Addendum No. 2, Ref. #1 (above).

This Request for Proposal Addendum will be provided in alternative formats such as Braille, large print, audiocassette or computer disk for individuals with disabilities upon request.
